

# Household Hazardous Chemicals Checklist

**Before starting**, ask your parent to help you look through your house to find the products that are used in each of the following areas. Read the label and look for words like **Corrosive**, **Flammable**, **Explosive**, **Toxic**, **Poison**, **Hazardous**, **Caution**, and **Warning**. These words are clues that the product is hazardous. If the product is hazardous, put a check in the blank to the left of the item. Circle products that you use.
